

**NALSAR UNIVERSITY OF LAW
&
ADMINISTRATIVE STAFF COLLEGE OF INDIA**

**NOTIFICATION FOR THE ONLINE COURSE ON
INDIAN ELECTRICITY LAW**

ABOUT NALSAR

NALSAR University of Law, established under Act No. 34 of 1998 and accredited with an A++ Grade by NAAC, is a premier Law University known widely for its academic excellence, innovation and holistic learning. The University has been home to vital conversations on law and justice. NALSAR has been offering online short-term courses in specialized areas designed specifically for working professionals. These weekend programs aim to provide value addition in specialized areas, enabling participants not only to enhance their knowledge but also to apply it effectively in their day-to-day professional roles.

ABOUT ASCI

The Administrative Staff College of India (ASCI), established in 1956 as a joint initiative of the Government of India and Indian industry brings a rare combination of field research, implementation experience, and pedagogical rigour to every programme it delivers. The Centre for Energy Studies (CES) brings over three decades of expertise in the energy and power sector, supporting governments, regulators, and industry across electricity reforms, renewable energy, and power markets.

ABOUT THE COURSE

India's electricity sector has undergone a remarkable transformation, from the Indian Electricity Act of 1910 through the Electricity (Supply) Act of 1948 to the landmark Electricity Act, 2003. The 2003 Act consolidated the framework, introduced open access, transparency in sectoral decision making and promoted consumer empowerment. Electricity is a universal necessity and has become indispensable be it for domestic use or commercial and industrial applications. The proposed course on Indian Electricity Law aims to familiarize the participants with law, policy and regulatory framework governing the electricity sector. This interdisciplinary course blends ASCI's expertise in technical and policy aspects and NALSAR's domain knowledge in legal and regulatory aspects.

This course aims to provide participants with a structured legal and technical approach towards the legislative framework, regulatory dynamics of India's electricity sector.

COURSE OBJECTIVES

- Historical evolution and legislative framework of electricity sector in India.
- Interpreting and applying the Electricity Act, 2003.
- Roles and responsibilities of institutions established under the Electricity Act 2003 i.e. Regulatory Commissions, Ombudsman, Appellate Tribunal, etc.
- Legal and technical aspects of Tariff Determination, Open Access, Power Purchase Agreement, Pilferage and Theft, Renewable Energy, etc.
- Key judgments and case laws influencing electricity jurisprudence.

COURSE OUTCOMES

- A comprehensive introduction to the legal framework governing the electricity sector.
- An interdisciplinary understanding of the sector's functioning.

KEY HIGHLIGHTS

- Live interactive sessions led by **distinguished academicians** and **renowned industry experts**
- Flexible weekend schedule tailored for working professionals
