O.P. Jindal Global University (JGU) is a non-profit, multi-disciplinary, and research-oriented university founded in 2009. JGU was established as a philanthropic initiative by its Founding Chancellor, Mr. Naveen Jindal, in memory of his father, Mr. O.P. Jindal.

JGU has over 16,000 students, more than 1,100 full-time faculty members, and over 2,900 administrative staff on its fully residential campus. The university comprises twelve schools focusing on various disciplines, including Law, Business & Management, International Affairs, Public Policy, Liberal Arts & Humanities, Journalism, Design & Architecture, Banking & Finance, Environment & Sustainability, Psychology & Counselling, Languages & Literature, and Public Health & Human Development.

Over the past decade, JGU has evolved into an institution that brings together full-time faculty from more than 50 countries, students from over 100 countries, and collaborations with more than 575 leading institutions in 80+ countries, creating a truly international learning experience.

JGU is ranked Number 1 in the world with the highest overall score amongst all universities and awarded 'Gold' by the Times Higher Education (THE) Online Learning Rankings 2024. JGU has been ranked as India's Number 1 Private University for three years in a row by the prestigious QS World University Rankings 2021-2023. JGU has been recognised among the Top 150 universities globally under the age of 50 years by the QS Young University Rankings. JGU has also been recognised in the Top 500 Universities as per the QS Graduate Employability Rankings 2022.

The Jindal Global Law School, has retained its number one rank in India for six consecutive years and remains the only Indian law school listed in the Global Top 100 by the QS World University Rankings by Subject 2025. Furthermore, JGU holds the distinction of being India's top private university for Arts & Humanities and Politics & International Studies (within the Top 201-250 globally). It ranks among the top two private universities in India for Economics & Econometrics, among the top three private universities in India (Top 274 in the world) for Social Sciences & Management, and among the top six private universities in India for Business & Management Studies (Top 500 in the world) as per the QS World University Rankings by Subject 2025. In 2020, JGU was recognised as an 'Institution of Eminence' by the Ministry of Education, Government of India.

JSIA

JINDAL SCHOOL OF INTERNATIONAL AFFAIRS

Jindal School of International Affairs (JSIA) is India's first global policy School. The School combines the essences of International Relations, International Law and International Business as a necessity of our globalised times because of the density and thickness of international problems. Founded in 2011, the school imparts insights on the latest issues and trends in Global Affairs and International Relations. JSIA, in a short span of ten years, has carved for itself a position of pride of place among world-class entities engaged in the analysis of such themes.

Its journey is facilitated by its diverse Faculty - comprising academics, scholars & researchers, social scientists, authors, practitioner lawyers and diplomats and other eminent experts - drawn from both India and abroad.

The school provides various interdisciplinary undergraduate, postgraduate and PhD programmes to train students in various aspects of International affairs. JSIA has been offering three undergraduate courses- a 3-year Bachelor of Arts (Hons.) Global Affairs since 2015, 3-year Bachelor of Arts (Hons.) Political Science programme since 2020, and a 3-year Bachelor of Arts (Hons.) Diplomacy and Foreign Policy programme since 2022. At Postgraduate level, the school offers a Master of Arts Diplomacy, Law and Business-1 Year and a Master of Arts International Relations, Security and Strategy, and a Ph.D. in International Affairs. From 2023 onwards, all undergraduate programmes are of 4 years.

MESSAGE

FROM THE DEAN

JSIA's main objective is to generate and spread interdisciplinary social science knowledge that informs current and future international policymaking, via rigorous academic training of qualified graduate students. This dovetails with JGU's overall institutional goal of becoming a knowledge storehouse in the social sciences, which have been long played second fiddle to the hard sciences in Indian academia.

Although the need for building a world class school as a game changer in international studies education in India has been expressed in many quarters, no university has yet walked the talk by creating one. As JGU's third School— following the Jindal Global Law School (JGLS) and the Jindal Global Business School (JGBS) – JSIA aims to act as a corrective to the sliding standards of research in international studies departments and programmes across India.

By attracting internationally qualified faculty members and pooling together minds from a number of inter-related academic disciplines under a single School, JSIA is positioning itself as a producer of knowledge and shaper of careers in international affairs.

International studies in India require a quantum leap in terms of in-depth thematic and geographic understanding of world issues. JSIA's cutting-edge research and publications agenda and collaborations with international academic and policy institutions are meant to generate continuous scholarly output on hitherto neglected issue areas that comprise the fast expanding realm of 'global policy studies'.

India's voice on global issues must be strengthened via concrete policy contributions to outstanding world problems. JSIA will be a nucleus of this historic agenda.

JSIA'S Outstanding Undergraduate Dissertation Award

The Outstanding Undergraduate Dissertation Award will be granted to a young scholar who will demonstrate exceptional academic prowess by producing a dissertation that makes a highly original and impactful contribution to the field of Global Affairs. To be considered for this award, the dissertation must not only present a novel and relevant topic within Global Affairs but also reflect significant innovation in addressing contemporary global issues, emerging trends, or theoretical developments.

Elective Courses Policy

- 01** BA in Global Affairs (BAGA) students are offered elective courses from their second semester of study (as an optional course).
- 02** Elective courses are categorized into:
 - 2.1** General Electives: They are cross elective courses offered by other JGU Schools. These courses are interdisciplinary in nature.
 - 2.2** Specialized Electives: Offered by JSIA (as school elective or cross elective). They are grouped into five main clusters:

- Peace and Conflict Studies
- Economics and Foreign Policy
- Defense and National Security Studies
- Human Rights and International Development
- Global South Studies

Guidelines and Rules for Electives

- 01 Students can take a **maximum of 51 credits** outside JSIA in case they choose to opt for other school's cross elective which is **25% of the minimum credit requirement for graduation (208 credits)**.
- 02 External JSIA Credits exceeding 25% will imply the approval of the Dean of the School and Assistant Dean for Academic Affairs for Undergraduate programmes.
- 03 The removal of an elective with an (F) grade is possible only after the final semester if the student is fulfilling the mandatory credit requirement of 208 credits.

JSIA Specialization Policy

JSIA is offering elective courses that are categorized into five clusters:

- 01 Peace and Conflict Studies
- 02 Economics and Foreign Policy
- 03 Defence and National Security Studies
- 04 Human Rights and International Development
- 05 Global South Studies

The student has to pass three electives from the same cluster and undertake a 3 month-internship with one of JSIA research centres associated with a particular cluster to be awarded the specialization certificate before graduation. The three cluster elective courses can be taken in one semester or may be spread over two or more semesters.

Major with Minor Combination

Apart from their major degree, undergraduate students at JSIA can choose from thirteen diverse minor combinations, offering them opportunities to engage in interdisciplinary academic programs that complement their primary field of study. These minors span cognate areas within the humanities, social sciences, international affairs, and public policy, enabling students to tailor their academic experience to match their career aspirations and intellectual interests. This structure empowers students to cultivate a versatile academic profile, making them well-rounded candidates for graduate studies and careers in various sectors, including public service, international relations, research, and private industry.

JSIA'S Outstanding Undergraduate Dissertation Award

The Outstanding Undergraduate Dissertation Award will be granted to a young scholar who will demonstrate exceptional academic prowess by producing a dissertation that makes a highly original and impactful contribution to the field of Diplomacy & Foreign Policy. To be considered for this award, the dissertation must not only present a novel and relevant topic within International Relations but also reflect significant innovation in addressing contemporary global issues, emerging trends, or theoretical developments.

Elective Courses Policy

- 01** BADFP students are offered elective courses from their second semester of study (as an optional course).
- 02** Elective courses are categorized into:
 - 2.1** General Electives: They are cross elective courses offered by other JGU Schools. These courses are interdisciplinary in nature.
 - 2.2** Specialized Electives: Offered by JSIA (as school elective or cross elective). They are grouped into five main clusters:

- Peace and Conflict Studies
- Economics and Foreign Policy
- Defense and National Security Studies
- Human Rights and International Development
- Global South Studies

Guidelines and Rules for Electives

- 01 Students can take a **maximum of 51 credits** outside JSIA in case they choose to opt for other school's cross elective which is **25% of the minimum credit requirement for graduation (206 credits)**.
- 02 External JSIA Credits exceeding 25% will imply the approval of the Dean of the School and Assistant Dean for Academic Affairs for Undergraduate programmes.
- 03 The removal of an elective with an (F) grade is possible only after the final semester if the student is fulfilling the mandatory credit requirement of 206 credits.

JSIA Specialization Policy

JSIA is offering elective courses that are categorized into five clusters:

- 01 Peace and Conflict Studies
- 02 Economics and Foreign Policy
- 03 Defense and National Security Studies
- 04 Human Rights and International Development
- 05 Global South Studies

The student has to pass three electives from the same cluster and undertake a 3 month-internship with one of JSIA research centres associated with a particular cluster to be awarded the specialization certificate before graduation. The three cluster elective courses can be taken in one semester or may be spread over two or more semesters.

Major with Minor Combination

Apart from their major degree, undergraduate students at JSIA can choose from thirteen diverse minor combinations, offering them opportunities to engage in interdisciplinary academic programs that complement their primary field of study. These minors span cognate areas within the humanities, social sciences, international affairs, and public policy, enabling students to tailor their academic experience to match their career aspirations and intellectual interests. This structure empowers students to cultivate a versatile academic profile, making them well-rounded candidates for graduate studies and careers in various sectors, including public service, international relations, research, and private industry.

Certificate of Specialization

- Students must complete **3 electives (12 credits) in one cluster**, *or*
- A **3-month internship** with a JSIA research centre in that cluster.

Rules for Electives

- External electives beyond this require Academic Dean's approval.
- Only **one specialisation certificate** can be awarded.

Learning Outcomes

- Build interdisciplinary expertise in diplomacy, law, and business.
- Apply research and analytical tools to address global policy challenges.
- Develop professional competency in writing, negotiation, and communication.
- Integrate foreign language proficiency into international and cross-cultural work environments.

Career Pathways

- Graduates of the M.A. (Diplomacy, Law & Business) programme pursue roles in:
- International organisations and multilateral institutions
- Ministries of External Affairs, Defence, and Commerce
- Think tanks, policy consultancies, and research institutes
- International NGOs and development agencies
- Global business, trade, and risk analysis firms

The programme also prepares students for doctoral research and teaching careers in international relations and related fields.

CURRICULUM & PEDAGOGY

All students are required to take 9 mandatory courses covering different fields including international relations, international economics, international law, political and business risk management, academic writing and research methods and international history.

In addition to the mandatory courses, students may choose from a wide range of elective courses offered by the Schools of International Affairs (JSIA), Global Law School (JGLS), Global Business School (JGBS), Government and Public Policy (JSGP), Liberal Arts & Humanities (JSLH), Journalism & Communication (JSJC), Banking & Finance (JSBF), Design & Architecture (JSDA), Environment & Sustainability (JSES), Psychology & Counselling (JSPC), Languages and Literature (JSLL), and Public Health and Human Development (JSPH).

In the final quarter, students also have the option of completing a dissertation; the dissertation is worth 8 credits and can be done instead of elective courses of the same credit value.

Students must complete mandatory industry internship after the first two quarters (I, II) during winter break. JSIA has a dedicated team of faculty and staff to assist students with obtaining internships, in both India and abroad, as per student preferences and interests.

The typical format for a class at JSIA is a discussion based seminar on the principle of student-centred teaching. Students are encouraged to engage in critical thinking and lively debate, to draw links between theory, history and current affairs and to become better aware of the relationship between power, politics, business, law and justice.

PROGRAMME MODALITIES

The M.A. (DLB) degree is offered in offline mode: It is full-time, five days a week degree programme. Classes to be held in JGU off-campus centre in New Delhi.

A FOREIGN LANGUAGE

Foreign Language training is an essential requirement for programme and language classes are offered throughout the duration of the programme. Students have the option of choosing from among Spanish, German, French, Mandarin and Japanese.

Study abroad opportunities for undergraduate students*

1. Semester exchange / semester abroad programmes during 5th, 6th or 7th semester of the 4-year BA programmes.

A semester-long experience abroad, in which BA students attend classes in a foreign university and gain academic credits. More than 60 partner universities from various countries collaborate with JSIA, including Argentina, Australia, Canada, France, Germany, Italy, Japan, Russia, UK, US, and others.

Note: Semester Exchange: Students can go for one or two semesters to the partner university.

Fees: Pay tuition fees to JGU & other costs shall be borne by the student.

Semester Abroad: Students can go for one or two semesters to the partner university.

Fees: Pay tuition fees & other costs to the partner university

2. Dual degree programmes (2+2)

BA students can spend two years at JGU and two years abroad, with the opportunity to earn two degrees from both institutions. Currently, these opportunities exist with Geneva School of Diplomacy (Switzerland), University of Leeds (UK), King's University College at Western University (Canada), University of Sussex (UK), Victoria University of Wellington (New Zealand), and others.

3. Masters' progression (4+1)

BA students can spend two years at JGU and two years abroad, with the opportunity to earn two degrees from both institutions. Currently, these opportunities exist with Geneva School of Diplomacy (Switzerland), University of Leeds (UK), King's University College at Western University (Canada), University of Sussex (UK), Victoria University of Wellington (New Zealand), and others.

SHORT-TERM STUDY ABROAD PROGRAMMES

The short-term study abroad programme with UNITAR (UN Institute for Teaching and Research) is a two-week Summer or Winter school, where students get a first-hand experience in studying multilateral diplomacy, conference diplomacy, Sustainable Development Goals (SDGs), human rights, international law and justice, within close proximity to UN and other international institutions.

UNITAR's programmes are designed to be very interactive and participatory, which includes a direct exposure to policy practitioners and diplomatic settings, including visits to the Permanent Mission of India to the UN, with sessions including public speaking, negotiation skills, consensus-building, UN resolution writing, guidance on careers and applications.

The UNITAR-JSIA Winter School in Geneva and Summer School in The Hague offer transformative learning experiences for students seeking to understand the workings of the United Nations and its affiliated institutions. These initiatives are designed to deepen participants' knowledge of international affairs, strengthen core diplomatic skills, and provide direct exposure to the institutional landscapes of two of the world's most important cities for global governance.

In Geneva, the Winter School focuses on the city's role as a hub for multilateral diplomacy. Through expert-led lectures, practical training, and immersive sessions, participants explore the structure and functions of the UN system, engage with the foundational values of the UN Charter, and develop competencies essential for careers in international organizations.

Students receive formal training inside the Palais des Nations, engaging directly with the environment where multilateral diplomacy unfolds at the highest level. Sessions are also held at other major institutions, including the World Trade Organization, the World Intellectual Property Organization, the United Nations High Commissioner for Refugees, the World Health Organization, the International Labour Organization, the World Meteorological Organization, and the Office of the High Commissioner for Human Rights. The programme encourages participants to internalize the principles of the UN Charter and prepares them for future roles in multilateral diplomacy and global governance.

The Summer School in The Hague offers a complementary perspective, emphasizing the city's identity as the City of Peace and Justice. Participants engage with Hague-based institutions through interactive workshops, diplomatic training, and site visits. The programme provides insight into the role of the United Nations in international law and justice, with visits to the International Court of Justice and the International Criminal Court and sessions held by experts at major research and training institutes (The Hague Academy of International Law, Clingendael, Asser Institute, among others). For instance, at Clingendael - formally known as the Netherlands Institute of International Relations and one of Europe's leading think tanks and diplomatic academies - experts deliver high-level training in diplomacy, negotiation, conflict resolution, and intercultural communication to diplomats, civil servants, and professionals worldwide....and to our students!

To date, more than 100 students from O.P. Jindal Global University, and JSIA more particularly, have taken part in these programmes, gaining firsthand experience in international diplomacy and building networks with professionals and institutions at the forefront of global affairs. Their participation reflects the university's commitment to preparing globally minded leaders equipped to navigate complex international challenges.

JINDAL SCHOOL OF INTERNATIONAL AFFAIRS (JSIA)

At JSIA, we give our students the intellectual, practical, and language skills and experiences to prepare them for a wide range of meaningful careers, to keep up with a rapidly changing world, and ultimately, to change it. Those who wish to pursue higher education or careers in active national politics, new domains of politics, or international organisations will find this programme one of the best not only in India but also at the global level, because of its focus on exposure, combining the practical elements of politics with innovative research and analysis. The crux of this degree, like any other degree at JSIA, is on teaching students how to read, think, and write on national politics and global issues, and to keep up with political change. This set of skills and understandings will be fundamental to any professional path they pursue.

TAIWAN

EDUCATION CENTRE

Since 2007, Taiwan's Ministry of Education has established Taiwan education centers in many countries through the Taiwan Education Center Plan to attract students to study in Taiwan and promote Chinese teaching. Since 2011, it has fully subsidized the National Tsinghua University to develop the Taiwan Education Center in India and send Chinese teachers. So far, 35 centers have been set up in India—an important stronghold to promote Chinese teaching.

The Taiwan Education Center was established in 2011 at O.P. Jindal Global University. It is a unit under the Jindal School of International Affairs (JSIA) and is India's first Taiwan Education Center. The Centre recently celebrated its 13th anniversary.

In addition to learning Mandarin language, the students are very concerned about this forum and participate regularly at the activities organised by this forum.

The 6th India-Taiwan Bilateral Forum on Mandarin Chinese Teaching Materials for Indian Learners was held at O.P. Jindal Global University on August 9th and 10th, 2024.

INTERNATIONAL

INTERSHIPS

JSIA offers unique opportunities to students by providing them full-time internships abroad. For example, the Centre for African Latin American and Caribbean Studies (CALACS) sent two students - Sanjana Medipally, BA (Hons.) GA (2015 batch) & Aakanksha Lohia BA (Hons.) GA (2016 batch) - to Brazil in 2017 on a fully funded field internship.

STUDENT TESTIMONIALS

At JSIA, I have benefited the most from the diverse research centres, where I learnt not just how to improve my writing and analytical skills, but also gained the confidence required to apply for and participate in research projects. Additionally, the exposure and support from faculty members and seniors has provided me with internship opportunities at the most relevant and esteemed institutions, like the Embassy of Lebanon and the Ministry of External Affairs. The opportunity to pursue Interdisciplinary studies at JGU meant that I could finish a minor in Business and Finance along with my major, while also studying courses from other departments to compliment my understanding of global issues. Lastly, being a member of societies like Diplomania, Theatre Society and JGU Animal Welfare meant that I could develop my leadership skills while also contributing to activities I am passionate about. I am grateful for all the connections I have made during my undergraduate study at JGU and will always treasure the experiences I gained here

Divyashree Jha, student of BAGA 2021, JSIA,
O.P. Jindal Global University

The B.A. (Hons.) Global Affairs programme at JSIA prepares students to face the international arena equipped with multidisciplinary prowess, a powerful network of scholars and diplomats, and the ability to discern the unwritten and unheard. I have had the opportunity to head a research centre, publish my work in SCOPUS indexed journals, host 4 Ambassadors at the same time, contribute to an ambassador's book, publish a journal I curated, research with excellent faculty, choose other disciplines to incorporate into my portfolio, create my independent research study; all, due to the unique nature of the BAGA programme at JSIA. BAGA, and the brilliant faculty which curates it, shape students to tell better stories, be responsible global citizens and experience internationality in its true essence. JSIA does not mistake activity for progress, progress is what happens at JSIA.

Khwahish Agarwal, student of BAGA 2021, JSIA
O.P. Jindal Global University

The BA in Diplomacy and Foreign Policy at JSIA has been a thrilling, challenging, exciting and most importantly, enriching experience. In just two years of this degree, I have had the opportunity to learn from distinguished professors like Ambassador Mohan Kumar and take specialised courses like Introduction to Diplomatic Practice and War, Peace and Diplomacy. This degree is crafted for students who aim to be practitioners of diplomacy in the future, as an aspirant myself, the courses offered as part of this degree have helped me find my speciality in security studies and have improved my analytical skills manifold.

As a school JSIA is a leader on and off campus when it comes to research. More than 10 research centres actively function as part of the school, encouraging student authored and peer reviewed research that has been published around the country and the world. The diverse electives offered by JSIA to its students also allow them to find their specialisation in clusters of international relations early on in their degree. JGU as a community is a catalyst of ideas, innovation and networking activities. This environment has allowed me to explore interdisciplinary subjects, conduct independent and supervised research, and find my niche in the rapidly growing space of international affairs.

Vedant Thakkar, student of BADFP 2023, JSIA
O.P. Jindal Global University

At JSIA, I have entered a new world – one that is international, diverse and engaging. I have truly found a space which I can call my second home, built around facets of a global village. Its interdisciplinary curriculum integrates political science, economics, law, and history, fostering a deep understanding of global affairs.

A BA (Hons.) in Diplomacy and Foreign Policy has made me aspire to be a global leader. With its focus on thematic coursework, foreign language training, and interactive discussions, JSIA prepares students for diverse careers in diplomacy, media, and international organizations. The excellent faculty, the engaged class and the supportive administration makes it the perfect fit for any international career. Understanding International relations has not only been inspiring, but also fun in the DFP 2023 classroom.

Sarthak Ojha, student of BADFP 2023, JSIA
O.P. Jindal Global University

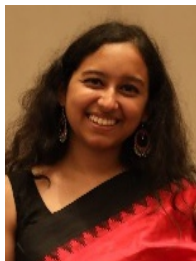

Being a student in Jindal Global University's (JGU) Political Science program was a huge boost for me, both academically and socially. I was able to learn a lot about different areas of Political Science, such as foreign relations, political theory, and public policy, thanks to the program's rigorous curriculum and multidisciplinary approach. I learnt how to think critically, analyse things, and understand global political systems in a more nuanced way through interesting classes and study projects.

JGU's campus life was lively and open to everyone, which helped build a feeling of community and teamwork. Debates, Model United Nations, organising fests, becoming a part of various JGU-wide societies and other student groups helped me become a better leader and get along with others. The university's world-class facilities also made it a great place to learn and grow.

The focus on academic success and mentoring at JGU helped me get ready for my master's degree at the London School of Economics and Political Science. I gained information, skills, and a global perspective at JGU, which still help me in my academic and professional life.

Masha Tokas, student of BAPS 2021, JSIA
O.P. Jindal Global University

My experience of three years at OP Jindal Global University has been nothing short of amazing. The BA Political Science programme at the Jindal School of International Studies is multidisciplinary and extremely contemporary in nature, with excellent pedagogical elements embedded into the curriculum. I studied courses that are not offered in any other university in India, including subjects from other disciplines schools as a part of elective options. I am so grateful that I got the opportunity to be taught by immensely knowledgeable faculty members whose passion and enthusiasm made all the lectures exciting and mentally stimulating.

My interest in political science deepened immensely throughout the journey of my engagement with JSIA. Additionally, I further developed leadership, public speaking and research writing skills through multiple curricular and extracurricular activities at JSIA. I was also a part of the JGU MUN Society and got the opportunity to organise Jindal Global University's Flagship Model United Nations event in Mumbai and served as the Secretary General. JSIA also helped me find my aspiration in the domain of public policy, which led me to applying and getting selected as a Teach For India Fellow after my graduation.

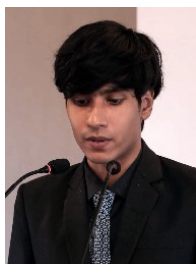

I am extremely satisfied and happy to get a chance to study at this university. The experiences that I had, the friendships I made, and the vibrant campus life will always have a very special meaning throughout my life.

Ishita Chakraborty, student of BAPS 2021
O.P. Jindal Global University

As for JSIA, it has been a unique academic journey. The school progressively extends towards the fields of International Relations and Geopolitics, offering a diverse range of subjects that cater to both traditional and emerging areas of study. What sets JSIA apart is its commitment towards providing students with the chance to learn from some of the finest professors in the field. This level of faculty engagement and expertise is something that is rarely matched by other universities, making the academic experience here both enriching and inspiring. My course in Political Science has been an engaging exploration of political theories, ideologies, and philosophies. Overall, my time at JGU and JSIA has been transformative, providing me with experiences and opportunities that I will carry forward for a lifetime.

Rudra Pratap Singh Yadav, student of BAPS 2022, JSIA
O.P. Jindal Global University

Studying B.A. (Hons) Political Science at Jindal School of International Relations has been a transformative experience to say the least. The program bridges theoretical understanding and diverse perspectives with real-world application and critical thinking. The program's inter-disciplinary nature allowed me to specialise in a field most relevant to my future while also being able to opt for appealing cross-electives. What makes this program stand out and helped me grow is the highly diverse, dedicated, experienced and most importantly, approachable JSIA faculty. Moreover, the education was never confined to the classroom walls due to frequent embassy visits and interactions with diplomats and experts in the field.

Over the duration of my course, be it the library or the sports field, thousands of students like me learned to call campus our home away from home with its plethora of extracurricular activities, fests and state-of-the-art facilities that enhance one's learning journey. The program has played a pivotal role in providing a robust foundational pillar for my further studies and a career in risk analysis and policymaking.

Abon Gooptu, student of BAPS 2020, JSIA
O.P. Jindal Global University

My experience at Jindal School of International Affairs (JSIA) was transformative, both academically and personally. The Political Science degree programme offered a rigorous curriculum that bridged theory with real-world applications. Courses on international relations, governance, and political theory, coupled with faculty mentorship, deepened my understanding of global political dynamics. One of the most enriching experiences was the short-term study abroad program in Spain, where I delved into Spanish language, history, and culture. Immersing myself in the vibrant streets of Granada and exploring historical landmarks brought theoretical concepts to life. Engaging with local communities enhanced my cultural sensitivity and fluency in Spanish, a skill invaluable for global interactions. The program's interdisciplinary approach and international exposure significantly boosted my professional prospects, opening doors to global organizations. JSIA not only shaped my academic foundation but also instilled the confidence to thrive in multicultural environments, ensuring my growth as a global citizen.

Gauravi Bhajanka, student of BAPS 2022, JSIA
O.P. Jindal Global University

My experience in BAPS was one that changed me not just academically but even as a human. I entered the gates of JGU having minimal understanding of how theory pans out in our day-to-day life. With my interactions with faculty, cohort, guest lectures and many other similar experiences, I got a chance to grow as a person. It made me experience new cultures, new theories, and newer undertakings of geopolitics and the Indian structure.

By simply having an open mind when I entered BAPS, I feel I could experience and make the most of my experience. The hard work paid off with the extensive support system provided to us, and to ponder upon your journey and growth trajectory three years later, feels like an accomplished which made the whole growth and learning experience fulfilling.

Nikita Banerjee, student of BAPS 2020, JSIA

O.P. Jindal Global University

My time at JGU has been transformative and enriching in numerous ways, both academically and personally. From an academic standpoint, the diversity and depth of the curriculum at JSIA have been exceptional. The interdisciplinary approach, combined with world-class faculty, has broadened my understanding of global issues and sharpened my critical thinking skills. I have had the opportunity to engage with complex topics, ranging from international relations to global governance, which have provided me with valuable insights that will benefit my future career. The state-of-the-art facilities, including well-equipped libraries, research centres, and technology-enhanced classrooms, have played a crucial role in enhancing my learning experience. Moreover, the vibrant student community and numerous extracurricular activities have fostered a holistic environment that goes beyond academics, encouraging personal growth and leadership. Additionally, the opportunities for internships, research assistantships, and collaborations with international institutions have been invaluable. The opportunities of semester exchange, meeting with Ambassadors and guest lectures have helped me gain valuable insights in every way possible.

Aryan Gupta, student of MADLB 2024, JSIA

O.P. Jindal Global University

The MA in Diplomacy, Law, and Business program in Jindal School of International Affairs, O.P. Jindal Global University offers a comprehensive educational experience that effectively blends theoretical knowledge with practical application. The university boasts impressive infrastructure, featuring well-equipped classrooms and a modern library. The faculty is a standout aspect, bringing a wealth of real-world experience and a passion for teaching that fosters engaging discussions and debates. Field trips to embassies and international organizations enrich our understanding of the global landscape, and increased frequency and diversity in these excursions would further broaden our perspectives. The seminars, often led by distinguished speakers, stimulate critical thinking and debate, while the program's emphasis on personality development through workshops enhances essential soft skills. The hostel accommodations are excellent with an expanded menu featuring international cuisine. Overall, the program successfully prepares students for careers in diplomacy, law, and business.
