The Robotics and Automation Lab at CT University is equipped with cutting-edge electronics, electrical, and mechanical devices, allowing students to work on any project 24/7, 365 days a year.

Furthermore, CT University has pioneered the establishment of a specialized Research and Innovation Centre for Excellence (RICE). This center is designed to provide unwavering support and guidance to young researchers and students, facilitating the transformation of their innovative ideas into commercially viable products through the integration of modern technology, all for the greater benefit of society.
