

SKILL DEGREES

B.Voc | Skill BBA | Skill BCA | Skill B.Com

WHO WE ARE?

We are **Skill College** established as Drona Foundation, back in the year 2015, we are a leading platform of India in providing Skill Based Higher Education. Our main focus so far has been on promoting **B.Voc & Other Skill Degree Programs** among the youth.

Across Gujarat, we have established **10+ Skill Hubs** at leading Universities and Institutions, connected with **1500+ Industry Partners, 8+ Specializations, 200+ Team Members, 3000+ Existing Students** and **1500+ Alumni**.

Based on **Germany's Dual VET** education system and guided by India's **National Education Policy (NEP) 2020** we have created a robust model to make employable youth from our higher education system.

We are trying to fill the gap between industry-academia by combining theoretical knowledge with tools such as **Internships** and **On the Job Training (OJT)** at industry to provide skill based vocational education in real sense.

OUR MISSION

Our mission is to promote and strengthen the B.Voc & other Skill Degree Programs in every nook and corner of the country by helping all universities and **Higher Educational Institutions (HEIs)** to start and run these programs effectively.

OUR VISION

Our vision is to create a **Skill Based Vocational Higher Education Eco-System** which combines theoretical education with experiential learning in the form of internship, apprenticeships or On the Job Training (OJT) to produce employable and entrepreneurial youth with high earning potential and high ethical standards.

FROM MANAGING TRUSTEE'S DESK

PROF. PRATIK JOSHI

Chief Executive Officer (CEO),
Skill College

Today from one end we see youth complaining about No Jobs or Jobs with lower salaries and packages and exploitation by industry and on the other end we listen to a lot of complaints from industry that they don't get smart, skilled, honest and hardworking employees to whom they are ready to pay anything they ask.

Whose job is it to bridge this gap? What's going wrong? As an educationalist, I believe it is our duty. Somewhere we, tier 2 or tier 3 institutes have become money earning factories of education who only focuses on number of admissions rather than number of placements or as tier 1 branded institutions we only take brightest of the bright students and certify or brand their degrees with logos of IIMs and IITs and take all the credits for their employability.

We as Skill College embarked on a journey to bridge this gap by skilling up youth at undergraduate level with degrees like B.Voc, Skill BBA, Skill BCA, Skill B.Com which gives them theoretical as well as practical learning experience to up-skill them in real sense and make them employable and enterprising. We focus on commercializing skills and un-commercializing education.

- o Bhagwan Mahavir University (BMU)
- o Institute of Quality Education (IQE)
- o Noble University (NU)
- o SkyBright Education (SBE)
- o Sigma University (SU)

WHAT IS B.VOC & SKILL DEGREES?

Bachelor of Vocation (B.Voc) is a graduation degree that was introduced in the year 2013-2014 by **UNIVERSITY GRANTS COMMISSION (UGC)**, also it introduced internship embedded degree program policy along with **NEP 2020**. However, very few students, parents, and teachers know about this graduate degrees. This concept is based on Germany's Dual VET system where students get developed as an employee in their graduation phase while other course students are just referring to theory knowledge and redeeming a graduation degree. The meta of Skill Degrees is different from other degrees, it focuses on practical knowledge as well as theoretical knowledge.

The course holds 60% practical and 40% theoretical knowledge. The students get placed in companies/industries associated with their specific specialization for **On the Job Training (OJT)** or The Internships which are mandatory. All Skill Degrees are earned while you learn programs.
